Editorial Index to Volume 217

January to December 1989

A

Allied Steel & Wire, Company Profile
Allied Steel & Wire sails through first year of flotation. July 374

Alloyed steels
Industrial manufacture of massively nitrogen-alloyed steels in a pressure ESR furnace by G Stein *et al.* Mar 146
Annual Technical & Economic Review of European steelmaking. Aug 420

B

Billet inspection
On-line inspection of cold billet. By W Browne Nov 630

BISPA Annual Review
See UK Independent Steelmakers

Bright Bar
Precision production pays in bright bar processing. July 391

British Steel
Sir Robert Scholey reviews the privatisation and indicates future strategy. July 360
Renaissance at Llanwern. July 364

Blast Furnaces
A mathematical model for improving burden distribution in bell-less top blast furnaces, by S N Agrawal *et al.* Jan 12
Ceramic cups to extend BF hearth life. Jan 17
BF trough safety linings move to castables, by Paul Heathcote. Jan 20
Blast furnace supervisory control at Posco's Kwangyang steelworks. Jan 24
Hot blast joint system increases service life. Jan 24

C

Coated Steels
How and why to hot dip coat by Scott A Kriner. Dec 664
Colour coating emphasises clean air and water by Horst Dussing *et al.* Dec 668
Belgian joint venture homes in on electrogalv demand. Dec 672
BS refurbishes for electrogalv along the Regal line. Dec 674

Cokemaking
Finland's first coking plant Rautaruukki becomes independent of Soviet coke supplies. Feb 85
Air stage heating saves energy and reduces emissions by U Schwarz *et al.* Feb 88
Commissioning and initial operation of battery No. 6 at Sollac Dunkerque. Feb 92
Microwaves fix the position at Ravenscraig. Feb 96

Company Profile
Allied Steel & Wire sails through first year of flotation. July 374

Continuous casting
The first CSP production plant at Nucor Steel by Hans Malinowski. Nov 600
Thin strip casting venture, SMS Thyssen and Usinor-Sacilor. Nov 603
Modifying conventional slab casters to thin slab casting by G Holleis *et al.* Nov 605
Preventing breakouts by monitoring temperature. Nov 609
Electromagnetic instrumentation for continous casting by Paul W Manos *et al.* Nov 610

Cutting & Welding
Shielding gases do more than protect. May 272
Oxy-fuel cutting moves to automatic. May 274
Air plasma makes for better cutting. May 275
Welding in camera boosts quality. May 276
Strip welding speeds up with direct current. May 276
See also Welding feature. Sept 514

D

Direct linking
Direct linking of cold sheet processing by Claude Beernaert *et al.* Apr 174
Belgian platemill hot charges in difficult conditions by Freddy Tilman. Apr 178
Direct linking of steelmaking to hot rolling by Zensaku Yamamoto. Apr 180
Computer models fluid flow in the steel industry. Apr 190

EAF Steelmaking
Electric arc steelmaking control developments. Sept 474
Practical review of electric steelmaking. Sept 476
Plasma recovery of EAF dust improves environment and economy. Sept 480
3rd European Electric Steel Congress. Sept 484
Carbon bonded basic refractories and slag control for EAF and ladle units by P Williams *et al.* Sept 488
Oxy-fuel burners save electrical energy. Sept 492
Roof mounted oxy-fuel burners at Clydesdale. Sept 492
Control and supervision of melting process for electric arc furnaces and ladle furnaces. Sept 497
Resetting device for electrodes. Sept 500
Slag-free induction skull melting for reactive alloys. Sept 505
Slag-free tapping; a requirement for clean steel by W Lederer. Sept 509
Directional plus system for ladle metallurgy by C Naturel *et al.* Sept 512

ECSC Reasearch
Structural refinement of ingots with vibrational energy. Jan 42
Measuring work-roll profile during hot rolling. Jan 42
Flow conditions key to energy saving in reheating. Jan 42
Temper rolling research in Europe. Jan 44

Environment, steel and the
International accord at Tornio. Apr 192
Learning on the job — Leicester Polytechnic offers distance learning courses in pollution control. Apr 193
The recovery of zinc from EAF dust by the Waelz process. Apr 194
Steelmaking fumes fet the Midas touch. Apr 195
Cleaning up in the scrap industry. Apr 196
Steel slag — turning a problem into an opportunity. Apr 198
Noise control in a built-up area. Apr 199

European File by Peter Wood
Lenin modernisation contract goes to Voest- Alpine. Jan 10
Swedish experts plan Hungarian restructure. Feb 60
No losses as Hungry improves export sales by $138M. Mar 116
Private beats state production in Italy during 1988. Apr 170
No long term commitments on alloy supply for special steels. May 228
Cromme warns of approaching market saturation. July 358
Usinor Sacilor must repay aid. Aug 414
Genoan spoke in Usinor's wheel over Alessio Tubi deal. Sept 470
Major Ilva spend on maintenance. Oct 543
Usinor-Sacilor extends its reach. Nov 598
More to counter Japan jvs says Mer. Dec 648

Hungary — Country Profile
On the brink of a market economy. Dec 675

I

Ingot production
Quality wins at Forgemasters Steels. Jan 26
Controlled pressure pouring established at Le Creusot for slab casting. Jan 29
Vacuum furnaces for high quality ingot production. Jan 30
Spray steel makes high quality tool steel. Jan 32

K

Know Your Steel
Series starting February 1989 by Derek Hawkins
The microstructure of metals (Part 1). Feb 102
The mechanical properties of steel (Part 2). Mar 154
The mechanical properties of carbon steel (Part 3). Apr 214
Heat treatment of steels (Part 4). May 284
Hardening and tempering of carbon steels (Part 5). June 343
The effects of alloying on the properties of steels (Part 6). July 404
The use of alloy carbides in steels (Part 7). Aug 460
Stainless steels — part I (Part 8). Sept 532
Stainless steels — part II (Part 9). Oct 582
Weldable structural steel (Part 10). Nov 638
The machinability of steel (Part 11). Dec 688

L

Ladle Metallurgy
Flexible ladle metallurgy at Forgemasters Steels by Eric Lowe. June 305
Ladle reheating using metallic fuels offers low cost temperature trimming by Neal R Griffing *et al.* June 308
Process control of LTV's Indiana Harbor ladle metallugry plant. June 312
Secondary facilities are conerstone to Imatra investment programme. June 316
Refining the melt at Llanwern. June 319

Maintenance
A classic of its type: IISI on maintenance by Jonathan Aylen. Oct 566
Vibration monitoring on Cardiff Rod Mill by G Morgan and J Watton. Oct 571
Equipment diagnosis is key to condition based maintenance. Oct 576
Planned maintenance saves money. Oct 578

Marking and identification
Making you mark on steel. Jan 34
Robots sign on hot cast slab. Jan 36
Hot metal stencilling system provide clear recognition. Jan 38
Automatic systems make quick work of marking. Jan 40

Mechanical handling
Automatic handling takes the labour out of tundish lining. Mar 120
Careful handling gives quality returns at Baoshan. Mar 122
Getting a grip on handling equipment for the steelworks. Mar 124
Fagersta fishes for wire rod coils with a hook conveying system. Mar 128
Controlled addition to the melt needs measured handling. Mar 129
Hoogovens ties the knot on rebar. Mar 130
Smedjebacken-Boxholm makes quiet work of bundling bars. Mar 132
Cranes go over the top throughout the works. Mar 134

Making you mark on steel. Jan 34
Robots sign on hot cast slab. Jan 36
Hot metal stencilling system provide clear recognition. Jan 38
Automatic systems make quick work of marking. Jan 40

Mechanical handling
Automatic handling takes the labour out of tundish lining. Mar 120
Careful handling gives quality returns at Baoshan. Mar 122
Getting a grip on handling equipment for the steelworks. Mar 124
Fagersta fishes for wire rod coils with a hook conveying system. Mar 128
Controlled addition to the melt needs measured handling. Mar 129
Hoogovens ties the knot on rebar. Mar 130
Smedjebacken-Boxholm makes quiet work of bundling bars. Mar 132
Cranes go over the top throughout the works. Mar 134

Melting Pot by Keith Gale
Frozen blast, Quality; whose responsibility, Still more Bessemer. Jan 48
Gone but not quite forgotten, Pig Boiling, Little taverns. Feb 97
Taking the machine to the job, The iron tower, Iron and brass. Mar 151
Open hearth preservation, Acid v basic, Sheet iron. Apr 208
Near net shape, Managers and gentlemen. May 283
The case of the disappearing ingot, History in the making, Job specification, Metal mixers. June 337
Hearth coke, Classic text books, Drinks on the house? July 393
Boilers might fly, 'Other processes', Flame cutting. Aug 455
Active metal mixes, Machining mill housing , Silicon steels, Names can be misleading. Sept 530
Bessemer: the man, not the process, Who was first with conticast?, A little knowledge. Oct 579
Electric steelmaking, Scrap in coils? Nov 631
Microscopy and steel, Thirty years at Ironbridge, Surface finishes, Green steel? Dec 682

Metec Preview
Metec provides showcase for plant and equipment. Apr 200

N
Non-destructive testing
When good isn't good enough. June 333
Cracking the problem of transverse defects. Nov 613

O
Offshore steels
Use of structural hollow sections in offshore topside structures. Sept 517
Steel castings — an opportunity for better engineering and cost efficiencies in topsides. Sept 521
Carbon and stainless steels for offshore applications. Sept 522
Stainless topsides save weight. Sept 523
Protecting steel offshore. Sept 524
Confidence offshore by A M Cuthill *et al.* Sept 527

On-line inspection
Transverse temperature measurement to improve hot strip quality by N Jenks *et al.* May 242
On-line surface examination of metals by Tim Smith. May 246
Infra-red temperature measurement at Sheerness Steel ensures quality. May 257
Practical considerations for high speed remote strip thickness measurement by Andrew Wilson. May 258
Automatic inspection comes of age by Dr R E Woodrough. May 262

Oxygen in steel
Control of oxygen during steelmaking and the production of ultra-clean steel Seminar Report. May 278

Oxygen Steelmaking
Ensidesa's new converter shop reaches capacity production. May 233
Recovering converter waste gas for economy and pollution control. May 236
Automatoin of combined blowing at Wakayama. May 240

P
Polish profile
Modernsiation proposals for Poland's Lenin Steel Works by Tim Smith. Aug 419

Process control
Controlling pulp to steel. Nov 615

Q
Quest for Quality
Quality system assessment and approval by LRQA by B P Rees. Oct 547
Getting into training for BS 5750. Oct 550
Quality registration in the steel industry. Oct 556
Instrumentation for flat rolled products. Oct 558
Computer aided quality control in an integrated steelworks. Oct 559
Continuous coating measurement using beta backscatter by T D T Latter. Oct 560
Quality assurance from the stockholder. Oct 563

Refractories
Ceramic welding — the refractory life support system by Jim Smart. June 321
Recent trends in refractory linings for oxygen converters. June 326
Steel fibres can improve refractory performance. June 328
Ceramic fibres insulate to 1600°C. June 330
Strong arm refractory wrecking. June 330

Reheat Furnaces
Induction heating in rolling mills. Dec 652
Induction heating for direct linking by C W Quickenden. Dec 654
Upgrading the walking beam furnace. Dec 658
Taking a ride in the reheat furnace. Skids, doors and veneers improve performance. Dec 660
Stock temperature in reheat furnaces. Dec 662

Robotics
Application of heavy lifting robots. Aug 439
Robotic repair of hot refractory linings. Aug 441
Robotisation in a steelworks laboratory. Aug 445
Corporate planning in the steel industry by M G Mytton *et al.* Aug 448

S
Service Centre
Producers and stockholders must present united front. Jan 49
Computer link speeds plasma profiling. Feb 100
Selvey's overhaul is part of ASD expansion project. Mar 155
Capital investment increases Richardsons Westgarth's capacity by a third. Apr 218
How to settle on the right saw. May 286
North East England stockholding is big business for BS. June 340
Double take and diversification results as Richardsons Westgarth buys Tatton. July 400
Brasway group moves focus from manufacturing to stockholding. Aug 457
Major investment at Walkersteel Stainless, Armstrongs relocate to Stoke-on-Trent. Sept 534
British Tubes taps into the mainframe. Oct 584
Quality grumbles from users. Dec 691

Scrap Management
Modern automated scrapyard concept using inductive control. Mar 137
Demands for quality scrap will be harder to meet. Mar 139
Reorganised scrap facility at Sheerness is radio controlled. Mar 142
Scrap preheating begins to make sense. Mar 142
Joint venture to export scrap from EC. Mar 142
Direct scrap compaction into furnace charging basket. Mar 144
Fragmenter streamlines Blackbushe operation. Mar 144
New Ladle treatment station for BS Llanwern. Mar 144

Sizing press
Development of a slab sizing press for extensive slab width reductions by T Fujuitsu *et al.* May 266

Stainless
Outokumpu's new stainless hot mill. Jan 44

Stockholders, National Association of Steel
UK stockholders' increased market share is enviable says NASS. July 396
Capitalise on opportunities says NASS president Michael Worley. July 398

T
Thermomechanical Rolling
Coilbox: the tool for isothermal rolling by B A Zbinden. July 381
Continuous on-line thermomechanical rolling by Nippon Steel by M Ohashi *et al.* July 382
Improving hot mills with Encopanels. July 385
The use of thermal control in the reconstruction of hot strip mills by E C Hewitt. July 386

Tubemaking
Revamp of seamless tube plants — the economical alternative. Nov 617
Automating flexible welded tubemaking. Nov 622
Vertical extrusion seamless integrity. Nov 624
Cold wins over hot in structural sections. Nov 627
Continuous operation in the welded pipe line. Nov 629

U
UK Independent Steelmakers
Presidents' address — BISPA Annual General Meeting (Harry Morris reviews prospects for British private steel sector). Feb 62
BISPA technical committee ready for 1992. Feb 66
Investment projects by BISPA members 1988-89. Feb 68
UES grows in output and size. Feb 72
Stocksbridge keeps clean with new VAR. Feb 73
Forgemasters forging ahead under own power. Feb 75
Brasway record profits in 1988; Martins revamps 300mm bar mill. Feb 76
Unbrako steeling itself for challenge of 1992; Glynwed temper strip grows. Feb 78
The changing face of TWIL; Brymill's strip ready for action; Bromford in France. Feb 80
United Merchant Bar predicts further demand; BBB's brighter; Arthur Lee invests in growth; DSRM roll on. Feb 82

W
Welding
Coil joining for continuous process lines by D A MacKenzie. Sept 514
See also Cutting & Welding feature. May
